The Notice of Privacy Practices describes how Pain Management & Injury Relief Medical Center will use and disclose your Protected Health Information to provide treatment, to obtain payment, or for other purposes necessary to operate this medical practice.
Your Protected Health Information includes reason(s) for your admission, type of care and treatment you may receive, other information, including demographic information (e.g. your home address, age, gender, and so forth) that maybe necessary or helpful to identify you, or to assist your Physician and others to provide necessary medical care.
A Copy of our Notice of Privacy Practices is given to you upon admission or 1st day of service, whichever is earlier.
(Please see attached) **INITIAL** _____

ARBITRATION:

Attached you will find our Physician –Patient Arbitration agreement. By signing this agreement, you are agreeing that any dispute arising out of medical services you receive is to be resolved by binding arbitration rather than litigation.
Lawsuits are something that no one anticipates and hope to avoid. We believe that the method of resolving disputes by arbitration is one of the fairest systems for both patients and physicians.
Arbitration agreements between healthcare providers and their patients have long been recognized and approved by the California Courts.
By signing the attached agreement, you are changing the process by which your claim will be resolved (this does not take away your rights). You may still call witnesses and present evidence. Each party selects an arbitrator (called Party arbitrators), who then select a third, neutral arbitrator. These three arbitrators then hear your case.
This agreement generally helps to limit the legal costs for both patients and physicians. This also can spare some of the rigors of trial and the publicity that may accompany judicial proceedings.
Our Goal is to provide medical care in such a way as to avoid any such dispute. We know that most problems begin with communication. If you have any questions about your care…***PLEASE ASK***.

STATEMENT OF PATIENT FINANCIAL RESPONSIBILITY

Thank you for choosing Pain Management and Injury Relief (the "Facility") as your health care provider. This statement explains how we bill our patients and their insurance plans for the services we provide.

In-Network Services

If you are a member of an insurance plan with which the Facility has a comprehensive services agreement (or is "in-network") we will bill your insurance plan for your care. We will also bill you for your in-network payment obligations, which could be in the form of a co-payment, co-insurance, and/or a deductible.

Out-of-Network Services

If you are a member of an insurance plan with which the Facility does not have a comprehensive services agreement (or is "out-of-network"), we will ask you to sign a Communication and Election form like the one attached as Exhibit A to this statement. The form makes clear that you understand your treatment options and financial obligations, and have chosen to seek treatment at the Facility.

It is possible that your insurance does not provide coverage for out-of-network care, including the services the Facility will provide to you. In that event, the Facility will bill you, and you will be responsible for, the full cost of the services we provide you.

It is also quite possible that your insurance does provide coverage for out-of-network care, including the services the Facility will provide to you. In that event, we will bill you for your patient share responsibilities, but will absorb the cost of any out-of-network penalties your insurer may impose and bill you based on your in-network level benefits only. That means we will seek payment from you for your in-network level co-payment, co-insurance, and/or deductible, if any. We will seek primary payment from your insurer. Like the discounted fee we charge you, we will charge your insurance company a discounted fee as well. If for some reason your insurer does not pay the discounted fee it owes to the Facility, you will be responsible for that fee, in addition to your own financial responsibility portion.

We customarily expect payment at the time we render services. If you have any questions regarding our billing procedures, please do not hesitate to contact a member of the Facility's billing staff.

I wish to exercise my option to use my OUT OF NETWORK benefits and fully understand my financial obligation. I have chosen to use Pain Management and Injury Relief to have my procedure/treatment performed. I have been provided with a copy of the Pain Management and Injury Relief Patient Financial Policy, and I understand that I will be financially responsible for my co-insurance and deductibles.

Long –Term Controlled Substances Therapy for Chronic Pain Agreement

(A consent form from the American Academy of Pain Medicine)

The purpose of this agreement is to protect your access to controlled substances and to protect our ability to prescribe for you.

The long –term use of such substances as opioids (narcotic analgesics), benzodiazepine tranquilizers and barbiturate sedatives is controversial because of uncertainty regarding the extent to which they provide long – term benefits. There is also the risk of an addictive disorder developing or of a relapse occurring in a person with a prior addiction. The extent of this risk is uncertain.

Because patient use of these drugs has potential for abuse or diversion, strict accountability is necessary when patient use is prolonged. When the doctor, whose signature appears at the last page, is willing to consider the initial and/or continued prescription of controlled substances to treat your chronic pain, this agreement will only be subject to your strict adherence to the following policies indicated below:

All controlled substances must come from the physician (whose signature appears on the last page), or during his/her absence, by the covering physician, unless specific authorization is obtained for an exception. Multiple sources can lead toward (*unfavorable*) drug interactions or poor coordination of treatment.

All Controlled Substances must be obtained at the **same pharmacy** when possible. Should the need arise to change pharmacies, our office must be informed. Please indicate below, the pharmacy or pharmacies you have selected.

_____ Phone_____

_____ Phone_____

You are expected to inform our office of any new medications or medical conditions, and of any adverse (*unfavorable*) effects you experience from any of the medications that you take.

The prescribing physician has permission to discuss all diagnostic and treatment details with the dispensing pharmacists or other professional who provide your healthcare for purposes of maintaining accountability.

Please be aware that Pain Management and Injury Relief Medical Center will transmit your prescriptions electronically to the pharmacy that you designate as your primary pharmacy provider. Additionally, Pain Management and Injury Relief Medical Center will obtain your prescription history for the past two years from pharmacy benefit managers. Your prescription history will be maintained as a part of your electronic health record.

You may **NOT SHARE**, **SELL** or otherwise permit others to have access to these medications.

These drugs should not be stopped abruptly, as an ***abstinence syndrome*** will likely develop.

Prescriptions and/or containers of these medications may be sought by other individuals with a chemical dependency and should be closely safeguarded. It is expected that you will take the highest possible degree of care with your medication(s) and prescription. They should **NOT** be left out where others might see or otherwise have access to them.

Original containers of medication should be brought into the office only if requested by your doctor.

Since these drugs may be hazardous or lethal to a person who is not tolerant to their effects, especially a child, you must keep them out of reach of such persons.

Medications **MAY NOT BE REPLACED** if they are lost, become wet, are destroyed, left on an airplane, etc. You must immediately file a police report preferably with the police department in the area where the medication or prescription was lost or stolen. Obtain a police report number, along with the police officers name and contact number, before your doctor can make a decision to replace the lost or stolen item.

PMIR
Pain Management and Injury Relief

EARLY REFILLS will generally not be given (most controlled medications are prescribed on a 30-day basis).

Prescriptions may be issued early if the physician or patient will be out of town when a refill is due. These prescriptions will contain instructions to the pharmacist that they will not be filled prior to the appropriate date.

If the responsible legal authorities have questions concerning your treatment, as might occur, for example; if you were obtaining medications at several pharmacies, all confidentiality is waived and these authorities may be given full access to our records of controlled substances administration.

It is understood that failure to adhere to these policies may result in cessation of therapy with the controlled substance prescribed by this physician or referral for further specialty assessment.

Renewals are contingent on keeping scheduled appointments. **WE DO NOT phone in prescriptions after hours or on weekends.**

It should be understood that any medical treatment is initially a trial, and that the continued prescription of the medication(s) is contingent on evidence of benefit.

The risks and potential benefits of these therapies are explained elsewhere (and you acknowledge that you have received such explanation).

I understand the risk of Opioids and sedatives including but not limited to: Nausea, Vomiting, Itching, Constipation, and Urinary retention, Respiratory, Depression, Allergic Reaction and Death.

I _____, understand and agree by signing this agreement that if requested by the
(**Patient Name**)
Doctor(s): **DR HERSEL**, or **DR SPIEGEL**,
I authorize Pain Management and Injury Relief Medical Center to perform unannounced urine or serum toxicology screens(s) if the doctor deems necessary.

I also understand my cooperation regarding this matter is required.

Pain Management and Injury Relief Medical Center enforces a zero tolerance policy of illicit drug use. Therefore, presence of an unauthorized substance(s) may prompt referral for assessment for an addictive disorder and discharge from this office.

You affirm that you have the full right and power to sign and be bound by this agreement, and that you have read, understood and accepted all of its terms.
